

POSTAL SHIPPING BOX

Our Postal Box is made from moulded pulp. It is lightweight but very strong and durable, 100% recyclable, compostable and environmentally friendly.

Strong, sealable and stackable our boxes with lids will perfectly fit together and stack on top of each other for the safe transportation and the storage of valuable goods and products.

The most common uses for this product by our customers are:

Archive storage.

Worldwide transportation of mail and small packages.

Storage of goods.

Safe transportation of all types of products.

*1st Class
